## BOARD OF MANAGEMENT

Sr Dominica Mkhize (Chairperson)  
 Mr Bonginkosi M Cele (Vice Chairperson)  
 Fr Cosmas Mzizi (Secretary)  
 Mrs Marilyn B Mnguni (Assistant)  
 Sr Cosma Cira (Director of the Centre)  
 Mr Mario Fynn (Treasurer)  
 Mr Nkumbulo Mgozi (member)  
 Mrs Grace Moso (member)  
 Mr Richard Mchunu (member)

### HUMAN RESOURCE

#### SACRED HEART STAFF

**Director / Bookkeeper :** Sr Cosma Cira  
**Social Worker:** Miss Nombulelo Khwela  
**Receptionist:** Miss Rose Cele  
**Supervisors:** Mr Sandile Mjoli

#### Child Care workers :

Ms CJ Gumede  
 Miss Thabile Ngongoma  
 Ms Thembeke Mnguni  
 Ms Thandazile Mseleku  
 Miss Nonkanyiso Ntozakhe  
 Sr Cecilia Didi  
 Mr Siviwe Dandala  
 Mrs Nqobi Hlongwana  
 Mrs Vuyiswa Mbhele  
 Ms Peace Mkani  
 Buyisiwe Mchunu  
 Vusani Ngcobo

#### SUPPORT STAFF

**Maintenance/storerooms:** Sr Venantia Shomela  
**Driver:** Mr M Khambule  
**Security guards:** Mr Philani Ndimande  
 Mr B Doyisa  
**Cooks:** Ms Z Majola  
 Mrs V Khawula  
**Handymen:** Mr C Hadebe  
**House Helper** Mrs J Jeza  
**Casual staff member** : Ms Andiswa Khwela

## THE CORE MISSION

Our mission is to the care of children and youth physically, psychologically, spiritually and academically. We believe in Ubuntu principles and building capacity and skills of our children and youth so that they are able to play a meaningful role in their families and community. We prepare them for the safe return to their biological or foster homes.

### **Our objectives:**

To provide with a Christian home and yet allowing freedom of religion and giving each child the affection understanding and care which they naturally seek from those in child care.

To provide therapeutic treatment to children and youth.

To manage behaviour by caring children/youth in family style cottages.

To provide children and youth with adequate education while in our care.

To provide our children with family reunification services.

To provide HIV/Aids awareness programmes to our children and the neighbour community.

**Zulu dancers**

### Chairperson's address (Sr Dominica Mkhize)

To all dear friends, benefactors, relatives and all stakeholders in our Organisation Sacred Heart. I warmly greet you in this special year 2019/2019.

In the sentiments of gratitude and jubilation, I like to begin by congratulating our Director Sr Cosma and her colleague Sr Michael for having reached a milestone in the religious life. This year they celebrated their 25<sup>th</sup> Anniversary as religious professed sisters, who have freely committed themselves to serve God and humanity, especially the needy. The Sacred Heart Board of Directors, the staff, the children and community of sisters congratulate you and thank for your selfless and dedication in God's vineyard! May God bless you with many more years.

Still in the same breath, we thank and congratulate the veterans of our Organisation Sr Venantia Shomela, Mr S T Mjoli, Mrs V Khawula and Ms Joana Gumede for their Long, faithful, dedicated passionate and loving service to Sacred Heart, and more so to the children. You made an indelible mark in the history of our organisation especially in each and every child that went through your hands. May God reward you abundantly.

Now for this address, on behalf of the Board of Directors, I would like to thank God for the good year 2018-2019. There has been challenging moments, yes: but there were good ones too! So which ones do we want to count! Good ones of course! The challenges had to be there for us to provide stepping stones to climb up. Please follow the account that will be laid out in the director's report.

To all our regular benefactors and all the supporters of Sacred Heart, our organisation is where it is today because of you. With you we stand strong and look to the future with bright eyes and with confidence. We would like to assure you that we won't let you down, but we will continue ministering to God's people with generosity and love that you always give us. Please continue shouldering our organisation especially where it feels terrible weak as you always do.

At the moment Sacred Heart is facing with this challenge, among others: Sustainability. It is our wish to make our garden more active in order to sustain the home financially. This is in view of the day to day challenges as well as structural challenges.

Right now the residents of the children are showing big signs of aging roof gutters, walls and pipes. If our garden can be elevated above the level of subsistence and be more profitable, that can assure a long term life for the Centre and Convent.

It our wish to attend these structural challenges as soon as possible before they get worse and become more expensive. We appeal to all who can offer a donation or a donation in kind, as well as ideas or piece of advice to help us achieve this goal.

We wish you all continued blessings in your families and communities.

Sr Dominica (Chairperson)

## Director's opening reflection

Please, May I hug your difference?

I prefer this title because I think the phrase "promoting cultural diversity in circles of care" is quite loaded and may inadvertently push us in some directions we need to critically think about.

Promoting – not accepting, standing by, allowing to unfold, go out there and raise our voices about the importance of cultural diversity in our Circle of Care. This must show in the lives of children we cared for.

Cultural Diversity – not any sort of diversity, but cultural diversity. What is meant by this culture? How is it different from race, ethnicity, sexual identity, colour of skin etc? This called us to respect other cultures. Rather to violate them. The more important is to respect everyone's dignity, the image of God.

Circles – not any other geometric shape for which there cannot be a unifying centre, all other geometric shapes provide for hierarchy, separation, distinctions of value assignments, etc

Care - the depth of caring in all of its complexity on the one hand, and the simplicity of humanity on the other hand. (Lababantu banomphefumulo ongasoze wafa). We are here, right now to this place and to this moment our determination and commitment. We search in this place and in this moment for every opportunity to consolidate what we have already accomplished including our commitment to the children, our commitment to love this child, our commitment to love your child, our commitment to love the child that has never been loved, our commitment to love the child that will be born into love's desert where love cannot thrive in the face of grinding poverty, misery and everyday struggle, but where we make love thrive in spite of such adversity.

In year 2018/2019 I have no doubt that there were people who committed themselves in different ways in this centre to love our children unconditionally, the staff, board of management, local clinics, local schools, local church, local municipality, local police station, local NGO's and our Congregation. There are people of God who played a vital role at a distance as well. We will hear from our report, taking from our last AGM where by finances left us at the scaring conner' but because there are people who showed up in order to embrace with love the children in our care. Miracles do happened, to bring change in the life of children in our care. Sacred Heart is nurturing not the children in our care but the children in our country by allowing our children to be involved in the youth forum's meetings and gatherings. We encouraged them to explore and to experienced other cultures as they are from the rainbore Nation.

In closing let us all join our hands to fight against child abuse, let us be children's activist wherever we are and in whatever we do.

## SABC Foundation visit

It was a great pleasure for us to be visited by SABC Foundation on our special day of celebrating the name feast of the Home. This day was so remarkable because of the precious gifts we received from this Company. Groceries, table tennis, trampoline, 4 desk top computers and 16 cell phones. Our round of applause goes to Mrs Iris Cupido and the team. Without Mrs Nokuthula Mbanjwa this function won't be a successful one, she is the one who opened the doors wider for Sacred Heart to be known at SABC Foundation.

This happened immediately after the Holy Mass where by his Lordship Bishop MP Dlungwane blessed us with the very inspiring homily. He encouraged the team to work tirelessly without any complain, emphasising that Jesus said allow the children to come to me because theirs is the kingdom of heaven.

## MANDELA DAY (Industrial Development Cooperation)

2018/2019 was the year of explore, through Mr Martin Sithole Sacred Heart was also introduced to IDC. They donated the amount of R50 000.00 in honouring Tata Madiba. They asked us to use this funding only for that particular day. It was like a dream to spend R50 000 in two days but through the guidance of the Holy Spirit I assure you this amount was utilised effectively. All children got takkies, open shoes, groceries for that day, Central kitchen was tilled up, one vehicle got service, and Telkom bill was paid up. This team came very early in order to cook lunch for the children and they were prepared to serve them after school. It was a wonderful day for the children. Sacred Heart always benefit when people look at the centre which is functioning in rural area. For us to be in rural area means privilege.

## SACRED HEART OF JESUS SODALITY (ST JOACHIMS MISSION)

As we are named by Sacred Heart of Jesus, St Joachim's Sacred Heart Sodality is our foster family as the organisation yearly they do something for the children in our care. This means a lot to us when we see our local church is admiring the work that is done in their community. Umprofethe akukho la engaziwa khona ngaphandle kwelakubo)

## SOCIAL WORKER'S REPORT

**Admission / intake** are the process where the first engagement with the child takes place. During the admission phase, we emphasize the involvement of all parties including the Sacred Heart CYCC staff, the case manager, the child's previous caregiver (if the case enables this) and the child concerned. During this meeting, we inform the child of what to expect going forward so that they are not overwhelmed or victimised further.

An initial **assessment** or problem identification is also done during this **intake** phase. Here the team ascertains the needs of the child, seeks to understand the challenges facing the child and tries to ensure that the programmes to be rendered will benefit the child. During the past year, our database came up to 71 children being both boys and girls. Furthermore, this number also included children from Morester CYCC who were discharged a week after their admission. With this said, we currently have 66 children being 43 females and 23 males.

### Case Reviews

We managed to hold 24 **case review meetings** with case managers, parents and children in our centre. We continue to emphasize the involvement of the family members in these meetings. During these meetings, we also got a chance to redesign the children's **Individual Development Plans** according to their needs.

### Individual Consultations and Group Work

The social worker provided **therapy** to children at the centre during the reporting period. Children who had been neglected, abused and orphaned came to the office feeling very vulnerable and without hope. The social worker's office became a safe space for them and they were assisted to deal with the past hurt and build resilience. The younger children who were not very vocal were engaged through drawings, colouring in and playing fun activities. For the older children, the social worker used tools such as story/poetry writing, use of memory boxes and diaries & scrapbooks.

### Statutory Matters & Court

The social worker accompanied children to court when they were subpoenaed to **testify**. Although the Investigating Officers are responsible for the transportation of witnesses, we took it upon ourselves to accompany the children to give them a sense of support and familiarity. During the reporting period, we had two major rape cases from 2015 which were not finalised. We travelled to the respective courts on several occasions and sometimes the children did not even testify. We would be told to come back another day. Despite so many challenges and possible threats to our wellbeing, we are proud to report that these cases were eventually finalised in December 2018 and January 2019. The perpetrators were both sentenced to **life imprisonment**. We hope this will send a strong message to other perpetrators of child abuse.

## Children's Health

The health of our children continues to be of paramount importance to us. Many of our children were taken to the local clinic upon admission for a basic medical assessment. Others had to be taken to the local Ndelu clinic when they had ailments such as flue. Moreover, the social worker visited Thuthuzela Care Centre in Port Shepstone with children who had been victims of child sexual abuse. The caregivers and social worker also went to other various health institutions such as Turton Community Health Centre, Murchison Hospital, Port Shepstone Hospital and Mshiyeni Hospital. We also had a percentage of our children who were on ARV treatment which was collected and administered by the child and youth care givers. One of our youngest children attended sessions with the Occupational Therapist at Turton CHC since he was diagnosed with a developmental delay. A big thank you to all the staff for their dedication in meeting the health needs of our children.

## Education and Career Guidance

All of our children are currently in school at Umsinsini Primary and Khathi High respectively. The children are performing exceptionally well. The high school children attend morning and afternoon classes and also receive support from the child care givers. One of our youngest children who have been diagnosed with a developmental delay will be enrolled in an Early Childhood Development Programme soon. We currently have 5 children who are in grade 12 this year. We will assist them in the process of applying for tertiary education. We wish them all the best going forward.

Career guidance for our children in high school is part of our programme. We also assisted our matric learner to apply for tertiary admission. In the reporting year, we saw one of our children from Umzimkhulu area admitted to the University of Kwa-Zulu Natal. She is currently doing well and settling in. The child concerned also received funding from the National Students Financial aid Scheme. We really anticipate good results from this ambitious young lady.

We were also proud to witness the graduation ceremony for our children in Grade R at Umsinsini Primary. They

performed really well throughout the year and looked so smart on their special day! Here are too many more graduation ceremonies in the future!!!!

## Re-unification

The overall aim of **reunification services** is to restore relationships and to strengthen families. We strongly believe in the principle of children being within their families as opposed to being institutionalised. With this said, the centre ensures that the children have an on-going relationship with their families/relatives through facilitating visits at the centre and making regular phone calls. With such engagements with the families, we were able to discover so much information which had not been known by the case manager, the child and ourselves. This information was explored further which allowed reunification to be possible. In December 2018, 7 children were taken back to their immediate families, extended families, relatives and foster parents.

## Developmental Teams

Our centre continues to operate based on a holistic approach which looks at the development of each child psychosocially, spiritually, academically and physically. This development is facilitated by the various teams through their programmes as discussed below:

### ➤ *Psychosocial Team*

Throughout the reporting period, this team applied itself to the task of building resilience back into traumatised children, who had suffered neglect, abuse, abandonment and trauma. This was done through using various forms of therapy from group, to play and individual therapy. In some instances we were able to break through the pain, but however, some cases still require extensive work because the hurt is so deeply rooted. In many instances we found that this 'unresolved hurt' resulted in 'disruptive' behaviours. This still calls for consistent and far-reaching work to be done with the children concerned.

### ➤ *Education Team*

The children's Act 38 of 2005 as amended emphasises the involvement of children in decision making through 'child participation'. The centre believes strongly that the voices of children need to be heard. With this said, we continued to host the children's forum led by the education team which is a healthy platform for children to discuss various topics which are of interest to them. Some of the topics covered included children's rights and responsibilities, the extent to which our country has gained freedom and so forth. With this said a group of children who were elected by the larger group represent the centre at the Children's Forum meetings in the Durban District. Other programmes hosted by this team included debates, commemoration of national calendar events such as Freedom Day, Human Rights Day, World Aids Day and so forth.

➤ **Spiritual Team**

Sacred Heart CYCC continues to uphold Christian values and teachings which are instrumental in the development of our children and youth.

Some of the programmes that were rendered by this team include; Prayer days of the Rosary and at Grotto: Holy Mass in preparation of final examinations: Observing the Lent period leading up to Easter: the Pilgrimage where the children went to Keavelaer to connect with the creator. The children showed a keen interest in this trip and have shown great spiritual growth.

➤ **Sports and Recreation Team**

We believe that sport and play form a big part of therapy. Playing provides a window into a child’s personality and becomes a way in which children build relationships with those around them. Playing and recreational activities can enhance the child’s self-awareness and the process of self-discovery. The sports and recreation team hosted a number of ‘games day’ including soccer, netball and indigenous games. Some of these included children from the community. What third team also emphasised was the importance of fitness. They took walks and worked out on a regular basis. The children and the staff also participated in a Sports Day event at Durban Child and Youth Care Centre on June 16. The children poured their hearts out to the games and came back home with medals and a great team spirit!

➤ **Entertainment Team**

Entertainment programmes were aimed at building

relationships between the children and the staff. The programmes hosted during the reporting year include: funny day, Talent shows which were aimed at discovering the children's talents and capabilities. This team also hosted beauty pageants which helped build the confidence of children, confidence which they may have previously lost as a result of their backgrounds.

### ***Cottage Programmes and Activities***

The cottage programmes are offered by trained child and youth care workers which provide direct 'care' to children. Child care worker's engagement with children is supervised by the cottage supervisor. Children are taught age appropriate chores so that when children go back home, they will have a meaningful contribution to the household. The child and youth care workers are responsible for the following programmes and activities:

- Counselling
- Behaviour management
- Formulation of Circle of courage and IDP's
- Conflict resolution
- Star chart Appraisal ( Used as a form of instilling positive discipline)
- Teaching children Gardening and cooking skills

### **EVENTS OF THE YEAR**

SACRED HEART CYCC

ANNUAL REPORT

The 2018-2019 year had a lot of challenges and to some extent the social worker's office realises that there is ongoing work to be done with our children. It is the responsibility of all parties involved. With this said, we also believe that with God by our side, the wounds of our children will be healed and they will grow up to be honourable citizens in the community in future.

### **IBV DAY**

Every year all children in the centres are once became VIP'S by International bank Volk (IBV) in Durban Exhibition Centre. Many people left everything because of children. They enjoyed their togetherness and doing funny things. I believe that IBV Company is already blessed by God for such a wonderful event towards the vulnerable children and youth. Security is too tight to ensure that all children are safe from any harm. From the entrance they show their bangle as their identification incase the child get lost.

### **HERITAGE DAY**

Every year we had to meet together with other CYCC'S in order to celebrate our cultures and to share ideas of how to respect other peoples' cultures. We believe that your culture is my culture; my culture is your culture. All children showed their talents in ummasho, isigqi sase Africa, Zulu Dance and they eat African food on that particular day. Why we do this? We want to remind them that to live in the centres is like a bridge that will take us to the really life. They now understand that at the end of the day they will be reunited with their families where their cultures will be effective.

### **ST ANNE SODALITY (St Joseph Cathedral)**

November was the difference month to our children it was a pleasant day to be honoured by the visit of St Anne Sodality not just a visit, but they wanted to show the motherly love to our children. Every child got brand new Christmas clothes. If there are people who can bring such change in young people's lives especially mothers, the children's self-esteem will be automatically boosted. This also can ease the pain of their past experience. They deserve a round of applause including Fr Mathew CMM who celebrated the Holy Mass with us as a main celebrant. In his homily he put children first that children need adults to nature them not to destroy them. He quoted from St Anne's actions saying her passion was with the needy. If in nowadays St Anne's spirit is alive the number of the centre in the world will be decreased.

This celebration was in a very high profile because our children felt that there are people outside who care for them. They even mentioned this on their vote thanks. They didn't see themselves vulnerable their

attitude was changed to see themselves valuable even more that the children who are living with their families.

**PEECH AND PRIZE GIVING DAY**  
**Good Samaritan (Pennington people)**

Sal and the crew again repeat what they did last year, they prepared nice gift for our children as the symbol of sharing Christmas gift with the needy. They did this with unconditional love believing that the more you give out from the bottom of your heart the more you receive good things from God. What touches more is when I see their children also involved in this work of kindness. May the Lord increase their Faith. Our children dressed like celebrate honouring their day. The hall was also well decorated.

Our children generally have good behaviour they received their awards on the area of excellent this shows that the team of CCW worked very well with social worker. Our programmes are so relevant to their needs. We meet every month to ensure that children’s needs are given the first priority in our daily work.

**Opening of gifts**

**STAFF WELLNESS AND DEVELOPMENT**

APRIL -MAY	SUPERVISION	
JUNE-JULY	STAFF LIVE	Terminations and reason
AUGUST	SOCIAL WORKER’S FORUM	1 absconded
SEPTEMBER	Director’s Live	2 contract expired
NOVEMBER	CHILDREN’S ACT	1 for full time studies
DECEMBER	STAFF RETREAT / LIVE	
JANUARY	CYCW WORKSHOP	
FEBRUARY	HEALTH AND SAFETY TRAINING	
MARCH	CHILD CARE WORKERS FORUM	

Sacred Heart always believes in the quality of work. The team of caring (MDT) also is taken so serious to be empowered for the better results and excellent work. We meet monthly and every Monday to evaluate our working. The Management also do supervision to improve our work performance.

### Midyear evaluation

**The teams were given diaries for next year as the sign of accountability**

This team believes in one thing at a time that is why we meet twice a year for evaluation, six months is enough to be evaluated so that we might easily correct the mistake before the year end. We keep the team spirit by having fun and have secret pearls as our last event of the year.

### Staff retreat

Fr Velemseni Mkhize CMM again came to revive the spirituality of the team after they have been working so hard uplifting children, now is their term to be taken serious. You cannot give something you don't have. A big thank to Fr Velemseni for such a tremendous work to our team. He also Emphasized that caring is a very important thing, not only the children in the centres but the children from their families and in their communities. As our Motto says, Making a difference, Building the Nation"

### *Dedicated and vibrant team of child care*

### THE HIGHLIGHTS OF 2018/2019

#### KZN legislature visit

#### SABC FOUNDATION VISIT

You can read from the faces the happiness the children they have to see the special and important gifts they received on that day.

CONGOLOSE CELEBRATED TATA'S BIRTHDAY WITH US (What a privilege!!!)

SACRED HEART CYCC

ANNUAL REPORT

Every year Sacred Heart is doing exceptional work through the help of difference people who spend their quality time with our children in many ways. Some invited them for their special events and some visited our centre. Their contribution doesn't go unnoticed . they really make a big difference in children's lives. They left a deep impression on us and has been carved on stones in our hearts especially on the young hearts of the children in our care. You deserve the best thank you.

**MAINTENANCE :** every year our expenses goes up more on maintanance because our structure are too old as we heard from chairpeson's report. But we try our level best to ensure that children are safe.

### **Challenges:**

As we listed from the chairperson's address she mentioned some challenges:

- Right now the residents of the children are showing big signs of aging roof gutters, walls and pipes, asbestos is not allowed
- *Painting in and outside at girls Unit*
- *Electric gates for security purpose ( in three areas offices, girls and boys unit)*
- *Pipe fire extinguishers are the most needed item.*

### **LIASON, NETWORKING AND CONTACTS**

**The social workers had regular meetings and contact with various stake holders such as:**

## OUR VISION

*We are envisioning ourselves to be self-sustained organisation. Even though we have support from outside but we do not want to solely depend on the sponsors because we want to see this organisation having its own lifeline within itself for its own continuity and survival. We see the difficulty of having to depend on external funders giving the global financial crisis. Gardening and Bakery is our main focus.*

**WE WERE SO FORTUNATE TO EAT THIS CAKE THANK YOU CONGOLOSE**
